INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1991, ch. 127, pars. 1001 et seq., as amended).

5) A Complete Description of the Subjects and Issues Involved: At one time the Department counted foster children placed in foster care homes which also serve as day care homes differently than the parent's own children or than other children receiving day care services. The reason for this differential method of counting foster children was due to the Department's concern about the family's ability to provide for the foster children's needs while also caring for children receiving day care services. Recently, the Department completed comprehensive revisions to the Licensing Standards for Day Care Homes and the Licensing Standards for Group Day Care Homes wherein it clarified its position on how foster children will be counted when they are placed in a foster home which also serves as a day care home. For this reason, we are repealing these rules in their entirety.

6) Will this proposed repealer replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date: ___Yes __X__No
If "yes", date: _____

8) Does this proposed repealer contain incorporations by reference? No

11) Differences between proposal and final version:

Section 406.2, Definitions

Definitions were added for the following terms:

"Approved smoke detector" or "detector"
"Grade level"
"Ground level"
"Primary basement exit"

in order to clarify the specifications of the Facilities Requiring Smoke Detectors Act with regard to the type of smoke detectors which meet state requirements. The last three definitions were added to clarify the requirements for exits from basements used in the provision of day care services.

The following definitions were deleted from the rules: "Infant" and "Toddler".

The definition of "School age" was modified to include five year olds who are in full-day kindergarten.

The definition of "Special use areas" was modified to clarify that special use areas mean those areas that would not be included in the measurement of the area in the home used for child care.

Section 406.6, Provisions Pertaining to the License

Subsection (b) of this Section was revised to clarify that when a day care home accepts an additional school age child due to an unforeseen school closing, the acceptance of this child in accordance with Section 406.13 (f) is not a violation of the maximum license capacity requirements, as long as the total number of children under age 12 in the home does not exceed 12 children.

Subsection (c) of this Section was revised to clarify that when a day care home is operating under a transition plan approved by the Department in order to accept a sibling group, this is not considered a violation of the age limit specifications.

Section 406.8, General Requirements for Day Care Homes

Item (a) (2) - The requirement for a fire extinguisher was reinstated and the type of fire extinguisher to be used was clarified.

Item (a) (4) - The requirement for installation of smoke detectors wired directly into the electrical system was clarified. "Substantial re-

modeling" was defined as "more that 15% of the replacement cost of the day care home."

Item (a) (7) - The requirements for exits from the basement when the basement is used to provide day care were clarified. The home is required to have two basement exits, at least one of which shall qualify as a primary basement exit. If neither basement exit meets the qualifications for a primary basement exit, the licensee/applicant may request an inspection of the basement by the state or local fire authority.

Subsection (e) - The proposed requirement for a hot water control device was deleted.

Subsection (i) - The space requirement when more than eight children are receiving day care services was clarified. When portable bedding is used, 35 square feet of floor space per child is sufficient.

Section 406.9, Characteristics and Qualifications of the Day Care Family

Subsection (a) was clarified to require that any individual who has regular or frequent contact with children cared for in a day care home comply with the background check requirements.

Subsection (j) was clarified that caregivers and members of the household must submit proof that they are free of reportable communicable diseases.

Subsections (b) and (c) - The different requirements for full-time and part-time assistants were deleted and replaced with a requirement that assistants (whether full-time or part-time) be at least 14 years of age and five years older than the oldest child they supervise. Clarification was added that minor assistants must be employed in accordance with the requirements of the Illinois Child Labor Law.

Section 406.11, Substitutes

Subsection (a) was modified to allow the additional use of substitutes for family emergencies, medical reasons, and for continuing education with the approval of the supervising agency if the substitute meets the requirements for a licensed caregiver.

Section 406.12, Admission and Discharge Procedures

Subsection (a) was clarified to allow children to remain in a day care home for more than 12 hours if the parent's employment schedule requires it.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENTS

Section 406.13, Number and Ages of Children Served

Subsection (b) was revised by removing the original language in its entirety and giving a single caregiver three options for the care of children.

The first option permits a mixed age group consisting of up to eight children under the age of 12 of which up to five children may be under the age of five and up to three children may be up to 24 months of age.

The second option permits a pre-school group consisting of up to eight children under the age of 12 of which up to six children may be under the age of five if no child is under age three.

The third option permits a school age group consisting of eight school age children.

Subsection (c) was deleted in its entirety and replaced with language which allowed the caregiver and a part-time, after school assistant, to accept four additional children for care before and/or after school, during holidays, weekends, unforeseen school closings, and for the summer.

Subsection (d) was deleted in its entirety and replaced by new requirements which allow a caregiver and an assistant to care for up to eight children under five years of age of which up to five children may be under twenty-four months of age. Four additional children who are attending school full-time may be accepted for care only if the assistant is age 18 or older.

The Department also allowed flexibility for unusual situations. In new subsection (e) the Department allows caregivers, in the event of a brief unforeseen school closing, such as a snow day, boiler breakdown, flood, or other calamity, to accept one additional school age child. The caregiver would still be considered in compliance with the capacity requirements as long as the total number of children in the home under the age of 12 does not exceed 12 children.

In new subsection (f), the Department allowed flexibility in the event that one or more siblings of a child are receiving care in a day care home, but there is not a slot available in the appropriate age category for other siblings. The licensee may develop a transition plan to allow the caregiver to accept other children in the family who may not fall into the age configurations specified by the rules. The specifications under which a transition plan may be submitted for approval are explained in this subsection.

DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENTS

Finally, in subsection (h), the Department added a two-year sunset clause which applies only to this Section of the rules. This Section of the rules will automatically expire March 31, 1994. The Department will review the impact of these changes upon Illinois children receiving day care services and will propose amendments to these requirements regarding the number and ages of children served no later than July 1, 1993.

Section 406.14, Health and Medical Care

Subsections (b), (c), (d), (f), and (g) were added to clarify those conditions when children are too ill to be admitted to the day care home, explain the minimum requirements for each child's medical report, recognize the Illinois Department of Public Health's requirements that children with communicable diseases be excluded from day care until the infectious or contagious period has passed, requires that separate areas be established for the care of children who become ill, and requires that the caregiver and parent discuss and agree upon any plan for the care of children who are ill.

Subsection (e) on the handling of children's medications was clarified.

Section 406.22, Children Under 30 Months of Age

The terms "infant" and "toddler" were removed from this section and replaced with the phrases "children under 15 months" and "children under 30 months" respectively.

Subsection (e) was modified to allow for the use of germicidal solutions other than a bleach and water mixture only when approved by the Centers for Disease Control.

Subsection (h) was added to prohibit the use of dangerous or hazardous toys or play equipment.

12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreement letter issued by JCAR? Yes

13) Will these amendments replace an emergency amendment currently in effect? No

14) Are there any amendments pending on this Part? No

the health and safety of children receiving day care services. The Department also addressed issues raised during the public comment period. These comprehensive revisions to the licensing standards for day care homes:

--address many areas of concern to parents and providers;
--incorporate provisions of the law which had not been previously included in the rules,
--add more flexibility to the rules to allow for better care of children before and after school, during unforeseen school closings, in order to keep sibling groups together, and in the event parents must work extraordinarily long hours,
--add flexibility to the requirements for the family home and for the use of substitutes, and
--clarify those sections of the rules that had been confusing to day care home providers.

3)

Section Number:	Emergency Action:
6000.340	New Section

4) Statutory Authority: Implementing action taken by the Carnival-Amusement Safety Board at their January 18, 1991, meeting under the statutory authority granted them in Ill. Rev. Stat. 1989, ch. 111 1/2, par. 4056.

5) Effective Date of Amendments: May 11, 1992

6) If this emergency amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: Does Not Apply

7) Date Filed in Agency's Principal Office: April 30, 1992

8) Reason for Emergency: The Carnival-Amusement Safety Board believes that Bungee jumping done from a crane or other moveable platform falls within the statutory definition of an amusement ride and is therefore subject to regulation under the Carnival and Amusement Rides Safety Act. The sudden proliferation of Bungee Jumping, the diversity of equipment being used, makes the immediate establishment of safety standards a necessity for the protection of the public who jump from these structures.

9) A Complete Description of the Subjects and Issues Involved: The diversity of equipment available for use in Bungee Jumping makes the establishment of minimum design and strength requirements a necessity for the protection of the public. Further, standardized operational procedures and safety devices provide an additional measure of safety.

10) Are there any proposed amendments to this Part pending? Yes. In addition to this same rule being simultaneously published as a proposed amendment, the following amendment is pending:
